

MATCH Colloquium: Introduction to The Day

**Ken Turner
University of Stirling**

26th June 2012

www.match-project.org.uk

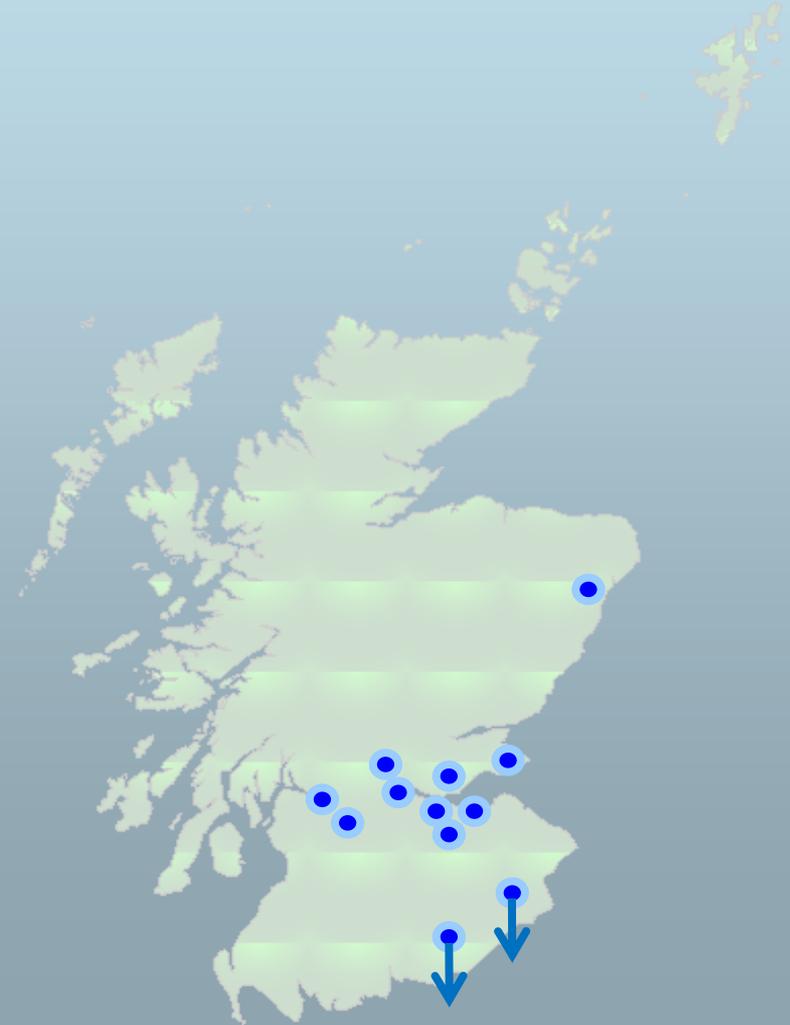

The MATCH Project

- Mobilising Advanced Technologies for Care at Home
- partly supported by Scottish Funding Council
Nov 2005 – Sep 2012
- focused on development and integration of home care technologies:
 - user requirements (all)
 - multimodal interfaces (Glasgow)
 - home care systems (Stirling)
 - speech communication (Edinburgh)
 - lifestyle monitoring (Dundee)

MATCH Partners

- mostly Scottish-based:
 - 9 research partners
 - 7 care partners
 - 6 commercial partners

Colloquium

- aims:
 - link people interested in assisted living technologies
 - summarise MATCH outcomes
 - identify future technology development/deployment
- structure:
 - external talks (SCTT, ScotEnt, East London NHS)
 - tea/coffee
 - MATCH talks (Glasgow, Stirling, Edinburgh, Dundee)
 - lunch
 - demonstrations
